Subject: West Lake, proposed response to complaint [RE: (Investigations/Other - FY14-116357-3800-CV) Referred to Region - Missouri]

See the complaint submitted below from a private party in Maryland Heights. As this complaint

is very similar to a recent one from Agnes Uhls that DeAndre Singletary responded to, I propose using some of his already-approved response for this response, as follows. **Let me know if this is acceptable, and if so who should send this response.**

“Thank you for your email regarding your air quality concerns for the communities and businesses in the immediate

vicinity of the Bridgeton Landfill. In many cases, enforcement starts with tips and complaints from concerned citizens

just like yourself. Due to the confidential nature of enforcement, the manner in which those tips and complaints are

followed up on cannot be disclosed as disclosure might compromise enforcement efforts. Tips and complaints are

welcome and future concerns may be submitted at <http://www2.epa.gov/enforcement/report-environmentalviolations>.

In the case of the Bridgeton Landfill, the regulatory authority to address air quality and management of the Resource

and Conservation and Recovery Act Subtitle D issues has been delegated to the state of Missouri and is being addressed

by the Missouri Attorney General on behalf of the Missouri Department of Natural Resources and the Missouri

Department of Health and Senior Services in coordination with Region 7 of the EPA. More information regarding the

actions undertaken at the Bridgeton Landfill can be found at <http://www.dnr.mo.gov/Bridgeton/>, or you may contact

MDNR’s solid waste management program at swmp@dnr.mo.gov.”

Principles and integrity are expensive, but they are among the very few things worth having.

Alleged Violator's Name: West Lake Landfill / Bridgeton

Alleged Violator's Address: 13570 St Charles Rock Rd, Bridgeton, MO

Alleged Violator's City: Bridgeton

Alleged Violator's State: Missouri

Alleged Violator's Zip: 63044

Tip or Complaint: The smell is horendous here. It has been going on since we moved here but would like to file a formal complaint since this is unacceptable. This carcenigins are not good and the residents in my area who are odler complain of health conditions...more than likely due to this. I beg you to address this more than you already are, as the lives of many are in your hands on this.

Specific Directions: Driving on I-270 from Page all the way past Rock Road. Can smell right from my home. Our home had radon (more thank likely not due to this, but possible). This landfill needs to be addressed.

Violation Still Occurring? Yes

State DEP/DEQ/DEM Notified? No
